

Second Annual Peak Oil Mini-Conference

Sunday, August 13, 2006, 1pm to 5:30pm

www.HoustonPeakOil.org

Discuss how to cope with rising energy prices with:

- Jeffrey Brown, independent geologist in the Dallas area, author of "What the mainstream media are not telling you about the run-up in oil prices" and "Texas and lower 48 oil production as a model for Saudi Arabia and the world"
- Alan S. Drake, a consulting engineer based in New Orleans and author of "The electrification of transportation as a response to the peaking of world oil production".
- Karl Pepple, City of Houston, Director of Environmental Programming
- Fred Yebra, Austin Energy, Director of Demand Side Management
- For details of other presenters: www.HoustonPeakOil.org

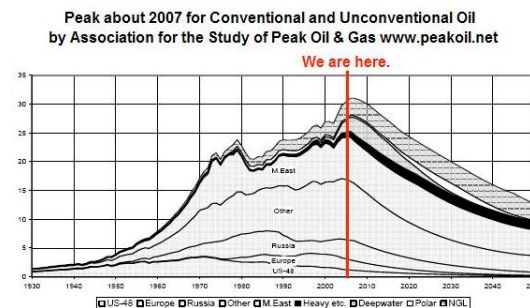

\$10 donation, no one turned away for lack of funds. Space is limited, so please pre-register at www.HoustonPeakOil.com or mail a check for \$10 to Nan Hildreth, 3939 Luca St. Houston 77021

Location: First Unitarian Universalist Church, 5200 Fannin at Southmore
Sponsored by: Houston Peak Oil Progressives, First Unitarian Universalist Church Community Involvement Committee, Oil Patch Democrats, Houston Climate Protection Alliance and Harris County Green Party.

Contact: Don Cook 713-705-5594 zenblews@hotmail.com
 Nan Hildreth 713-842-6643 NanHildreth@riseup.net

\$100 Tank of Gas – Coming Soon? Oil Depletion and the Collapse of the American Dream

The graph below by Association for the Study of Peak Oil and Gas predicts that global oil production will peak in 2007 and begin a long decline.

This means gasoline prices will keep going up, rising food prices, a stagnant economy, and more. Please prepare personally by adopting energy efficiency. Please experiment with more energy efficient ways to get around and live close to work or school. Please urge government officials to admit this challenge and take action.
