Second Annual
Peak Oil Mini-Conference

Sunday, August 13, 2006, 1pm to 5:30pm
First Unitarian Universalist Church
www.HoustonPeakOil.org

Maintaining our way of life depends on cheap oil but this is ending. Global oil production will peak soon, if it hasn't already, and then decline. The expected consequences are rising gasoline prices, rising food prices and a stagnant economy.

Come to our conference to learn what you and Houston can do to respond wisely to this paradigm shift.
